

Product No. RN146

Microbinate®

Internal/External Microbial Support

Physician-Requested Product Sheet

Features & Benefits

Scientific studies and articles in trade publications have focused attention on how bacterial strains are mutating at a faster rate than our current new antibiotic product development, rendering many bacterial strains resistant to the current antibiotic arsenal. All bacteria treated with conventional antibiotics will develop antibiotic resistance over time. The medical community is increasing physician education about the over prescribing of antibiotics and patients not following through on complete cycles of antibiotics as key contributors to this problem.

Supplement Facts

Serving Size: 2 Capsules
Servings Per Container: 60

Amount Per Serving	%Daily Value**
Proprietary MB® Blend	1160 mg †
Oregano Extract Powder (30% Carvacrol)	
Monolaurin (Glyceryl Monolaurate)	
Olive Leaf Extract (18% Oleuropein)	
Stabilized Allicin	
CurcuWIN™ Turmeric Extract	

** Percent Daily Values are based on a 2,000 calorie diet.
† Daily Value not established.

OTHER INGREDIENTS: Vegetarian Cellulose, Silicon Dioxide.

FREE OF: milk, eggs, fish, crustacean shellfish, tree nuts, peanuts, wheat, soy, corn and gluten.

Each Capsule Includes:

Features	Constituents/Actions	Benefits*
MB™ Blend	Oregano Extract Powder 30% Carvacrol	<ul style="list-style-type: none"> Most potent & expensive raw material with highest carvacrol content Support body's internal fight against pathogens Promotes healthy skin response to external challenges
	Monolaurin	<ul style="list-style-type: none"> Coconut acid derivative which promotes healthy skin and internal immune response Lauric acid is converted to the mono-glyceride, via an enzyme, creating the bioavailable Monolaurin. We deliver this nutrient in the preferred Monolaurin form
	Olive Leaf Extract	<ul style="list-style-type: none"> Contains d-lenolate, one of nature's powerful natural antibiotics Supports the body's internal defenses
	Stabilized Allicin	<ul style="list-style-type: none"> Stabilized to ensure active allicin content versus garlic powder Sourced in southern Europe, the bulbs must meet minimum allicin content, measured by HPLC before production Kept under constant pressure, water filtered (solvent-free) & low-temperature dried
	CurcuWIN™ turmeric extract	<ul style="list-style-type: none"> Promotes healthy inflammation levels & healthy skin response to external challenges Published research demonstrating highest bioavailable form of turmeric CurcuWIN combines curcumin with a hydrophilic (allowing it to disperse in water) carrier, using the UltraSOL™ molecular dispersion technology. UltraSOL converts lipophilic (fat loving or fat absorbing) nutrients into water-dispersible ingredients.

Microbinate® combines nature's most potent and well-researched nutrients into one formulation. Our formulators selected specific ingredient forms (i.e. we use a well-researched stabilized allicin versus inexpensive garlic powder or oil based products with little or no allicin content) to provide the most efficacious combination product. Microbinate® is designed to promote the body's healthy response to microbial challenges, internally and externally.

Free of: GMO's, soy, corn, tree nuts, peanuts, gluten, dairy, artificial colors

Suggested Use

Take one capsule twice per day for the first week, and two capsules twice per day in week two and beyond. For optimal results, take away from meals.

Cautions

Not indicated for pregnant women.
