

MycoRev™ Neuro

MycoRev™ Neuro is a complex combination of high quality extracts of Lion's Mane, CurQfen® (a bioavailability-enhanced turmeric), buckwheat leaf extract, and freeze-dried bovine brain, all selected for their synergistic neurological health supporting benefits.

Lion's Mane

Recent extensive research on Lion's Mane (*Hericium erinaceus*) has revealed significant benefits for healthy nervous system function. A large number of good quality clinical trials support its use for improvements in cognitive function, healthy mood, nerve health, and endogenous production of nerve growth factor.^{1,2,3,4} The unique active constituents from the fruiting body of Lion's Mane are hericenones and erinacines.

CurQfen®

CurQfen® is a patented and clinically trialed turmeric extract containing standardized curcuminoids combined with soluble fiber extract from fenugreek seed to enhance bioavailability. CurQfen® is a bioavailable curcumin, capable of providing free curcuminoids into plasma and further into organ tissues with improved blood-brain barrier permeability.

Buckwheat Leaf

Buckwheat leaf extract naturally contains antioxidant phytonutrients and is a (gluten-free) circulatory synergist.

Freeze-Dried Desiccated Glands

Our freeze-dried glandular powders are manufactured from raw glands of 100% New Zealand cattle. Freeze drying is a process of removing water from the raw gland that ensures the finished dried product retains as much of the biological activity as possible.⁵

The herbs in this supplement:

- ▶ Support healthy nervous system response
- ▶ Encourage balance between the body and mind
- ▶ Support healthy cognitive functioning
- ▶ Support healthy peripheral circulation
- ▶ Support a healthy inflammatory response
- ▶ Contain several independent factors to help maintain the integrity of capillary walls
