## What is BreastDefend® Professional?

BreastDefend® Professional is an advanced breast cellular health supplement that delivers targeted benefits for breast health and overall longevity. Backed by multiple published studies and extensive clinical use, BreastDefend® Professional works through multiple mechanisms to promote optimal breast cellular behavior and long-term breast health.\*

- Cellular regulation\*
- Hormone balance\*
- Optimal immune response\*
- Works synergistically with PectaSol for enhanced results\*

## Researched for Breast Cellular Health and Longevity

### Targeted ingredients deliver multiple benefits\*

BreastDefend® Professional combines powerful natural compounds that actively support optimal breast cellular health. DIM (3,3'- diindolylmethane), *Scutellaria barbata* (Chinese skullcap) extract, three botanically-cultivated medicinal mushrooms, a patented form of highly bioabsorbable curcumin

from turmeric called BCM-95®, and other researched ingredients in BreastDefend® Professional work together to optimize healthy breast cellular function, hormone balance, and immunity.\*

## Multiple Peer-reviewed Studies

Four published peer-reviewed studies demonstrate the benefits of BreastDefend® Professional to actively support breast cellular health and longevity by promoting favorable gene expression and cell signaling behavior. Research also shows that BreastDefend® Professional works synergistically with conventional oncology protocols as well as PectaSol Modified Citrus Pectin for even greater breast cellular health benefits.\*

cellular regulation  
+ hormone balance\*

## Supports Healthy Hormone Balance\*

BreastDefend® Professional contains a powerful active compound derived from cruciferous vegetables called DIM (3,3'- diindolylmethane). DIM is shown to promote healthy estrogen metabolism and cellular regulation, with long-term benefits for breast health. BreastDefend® Professional delivers optimal amounts of this critical phytonutrient for breast cellular health and hormone balance.\*

## Botanically-Enhanced Mushrooms Deliver Powerful Immune Support\*

BreastDefend® Professional includes three species of our revolutionary botanically-enhanced functional mushrooms: *Phellinus linteus*, Reishi (*Ganoderma lucidum*), and Coriolus (*Trametes versicolor*). These mushrooms are cultivated on a blend of immune supporting herbs and organic brown rice to deliver powerful immune support with a specific focus on breast cellular health.\*

## Synergizes with PectaSol\*

BreastDefend® Professional has also been shown in published research to work synergistically with PectaSol Modified Citrus Pectin, providing up to a 40% increase in breast cellular health support compared to either product alone.\*

## How to Use

As a dietary supplement, for maximum support, take 1-2 capsules twice daily with food, or as recommended by your healthcare practitioner. For daily defense in women with genetic or family history, take 1 capsule daily.
