**Caution:** If you are pregnant, nursing, have a medical condition, or taking prescription drugs, consult your healthcare professional before using this product. Keep out of reach of children.

## The Klaire Labs® Story

**According to all who knew her, Claire Farr was a tireless crusader, genuine humanitarian, and dynamic entrepreneur with a “commitment to excellence for the nutritionally aware.”**

In 1969, driven by a personal struggle with severe food allergies and environmental sensitivities, Claire Farr set out on a mission to formulate and manufacture the highest quality, hypoallergenic nutritional supplements possible. As many dedicated entrepreneurs do, Claire set up shop in her own home in Carlsbad, California, and Klaire Labs was born.

In her quest to develop a line of nutraceuticals that sensitive individuals could reliably tolerate, Claire initially focused on single-ingredient formulations.

Unlike most nutritional supplement manufacturers at the time, Claire purchased only pharmaceutical-grade raw ingredients selected specifically for maximum purity and bioavailability. She avoided the use of fillers and synthetic ingredients, while focusing on natural and synergistic constituents. The medical community began to take notice.

By this time, demand was growing for environmental, nutrition-focused, and integrative medical practitioners. As such, Claire and her unique products gained the attention and respect of a number of prestigious complementary medicine proponents. Word of Claire's consistently reliable outcomes spread, allowing her home-based start-up to grow into a new manufacturing facility, and expanding her capabilities to include bottling and custom formulations.

**Ther-Biotic®** The original hypoallergenic probiotic offering tailored formulations for more personalized performances.

It was not until 1983 that Claire introduced her first probiotic, a product category that ultimately became her most successful. Klaire Labs' Ther-Biotic® formulations remain a leading professional brand to this day.

In 2004, Klaire Labs was sold to ProThera®, Inc. ProThera, Inc. was in turn acquired by Soho Flordis International (SFI®) in 2013. SFI's philosophy to empower healthcare providers with better, natural options aligned quite naturally with that of Claire Farr. Having dedicated their lives' work to similar goals, the SFI founders represented a renewed commitment to, and a tangible investment in, Claire's founding principles.

In 2017, SFI USA (comprised of the three originating companies: ProThera, Inc., Klaire Labs, and Complementary Prescriptions™) christened a new >75,000 square foot, state-of-the-art manufacturing facility, including expanded scientific and support resources, advanced, quality tools, and modernized processes.

Although SFI has acquired several exceptionally discriminating, independent nutraceutical manufacturers across the globe in recent years, shared values are the common thread. In the spirit of honoring the past as we embrace the future, all products manufactured at SFI USA in Reno, Nevada, are now unified under the Klaire Labs brand and guiding philosophy.

# Probiotics

## Ther-Biotic® Complete

### Our most comprehensive, maximum-support probiotic formula

Ther-Biotic Complete is a robust, broad-spectrum, hypoallergenic blend of 12 probiotic species in a base of inulin. Designed to supply a complete component of synergistic and complementary species, each capsule provides 25 billion CFU, and each 0.25 teaspoon (1 gram) provides 100 billion CFU, protected by our proprietary InTactic® technology for maximum viability throughout the intestinal tract.

- Maximum probiotic support with colonizing and transient strains
- Clean and hypoallergenic for optimal results
- Available in 25B CFU capsules or 100B CFU powder

### Capsules

**SUGGESTED USE: Adults:** 1 capsule daily with food or as directed by a healthcare professional. **Children:** As directed by a healthcare professional.

## Ther-Biotic® Children's Chewable

### High-CFU, multispecies chewable probiotic

Ther-Biotic Children's Chewable is a broad-spectrum, hypoallergenic probiotic supplement designed for children 2 years of age and older. Our 25 billion CFU formulation, in a base of inulin, contains 8 total *Lactobacillus* and *Bifidobacterium* species which have been intensively researched and clinically shown to support gastrointestinal health and immune function in children.<sup>†</sup> The pleasant, natural flavor makes daily supplementation easy.

- Broad-spectrum gastrointestinal and immune support<sup>†</sup>
- Potent daily 25B CFU probiotic blend for anyone preferring a chewable option
- Sweet, natural flavor is ideal for children

**SUGGESTED USE:** For children 2 years of age and older: Chew 1 tablet daily preferably 30 to 60 minutes following a meal or as directed by a healthcare professional. Not recommended for children less than 2 years of age.

### Supplement Facts

Serving Size 1 Tablet

Amount Per Tablet	% Daily Value
Probiotic Blend (25 billion CFU) in a base of inulin (derived from chicory root)	224 mg *
<b>Lactobacillus species</b>	17 billion CFU *
<i>Lactobacillus rhamnosus</i>

### K-TCC 60 chewable tablets

<sup>†</sup>These statements have not been evaluated by the Food and Drug Administration. These products are not intended to diagnose, treat, cure, or prevent any disease.

## Ther-Biotic® Infants Powder

### A multispecies probiotic formula to meet the special needs of infants

Ther-Biotic Infants powder is a 10-species probiotic blend in a base of inulin, designed to safely meet the metabolic, intestinal, and immune-support needs of infants and young children.<sup>†</sup> This formula supports a normal infant microbiota that can be easily disrupted by cesarean section delivery, formula feedings, medications, environmental exposures, or maternal diet.<sup>†</sup> Each scoop (0.5 gram) provides 5 billion CFU and offers safe gastrointestinal, metabolic, and immune support.<sup>†</sup>

- Developed specifically for infants' and young children's developmental needs
- Clean and hypoallergenic for optimal results
- Available in 5B CFU powder that can be mixed with breast milk, formula, or food

**SUGGESTED USE:** For children over 12 months: 1 scoop, once or twice daily. For infants 6 to 12 months: 1 scoop daily. Mix product in infant formula, milk, juice, or sprinkled on food such as yogurt, apple sauce or cereal, or as recommended by your healthcare professional. For breastfeeding mothers, product can be added to expressed milk, or small amounts at a time can be dispensed by placing on nipple or finger.

## Ther-Biotic® Women's Formula

### Supports genitourinary microbiota health†

Ther-Biotic Women's Formula is a hypoallergenic blend of 10 species specifically designed to support a woman's genitourinary system.† Lactobacilli modulate the mucosal immune response to undesirable microorganisms, secrete biosurfactants to block their adherence and disrupt biofilm formation, and produce lactic acid to promote a healthy vaginal pH.† Each capsule provides 25 billion CFU, protected by our proprietary InTactic® technology for maximum viability.

- Concentrated probiotic support for women
- Clean and hypoallergenic for optimal results
- Available in 25B CFU capsules

**SUGGESTED USE:** Adults: 1 capsule daily with food or as directed by a healthcare professional. Children: As directed by a healthcare professional.

### K-TF6 60 vegetarian capsules

<sup>†</sup>These statements have not been evaluated by the Food and Drug Administration. These products are not intended to diagnose, treat, cure, or prevent any disease.

## Target gb-X™

### A targeted probiotic blend clinically demonstrated to support mood†

Target gb-X is a probiotic supplement specifically designed to support positive mood by influencing the gut-brain axis. It is powered by Ecologic BARRIER, a 5 billion CFU blend of 9 probiotic strains that has been clinically shown to decrease overall cognitive reactivity to sad mood, rumination, negative thinking, and aggressive thoughts.<sup>1</sup> Heightened cognitive reactivity to sad mood is an established risk factor for more serious mood alterations in otherwise healthy individuals and is therefore considered an important target for interventions.

- Powered by Ecologic BARRIER, a 5B CFU blend of 9 probiotic strains
- Protected by PROBIOACT® Technology for optimal efficacy and shelf stability
- Hypoallergenic, non-GMO powder offered in convenient, single-serving sachets

**SUGGESTED USE:** Dissolve the contents of 1 sachet in approximately 3-4 oz. of lukewarm water or mix with a dairy product such as milk or yogurt. Gently stir before consuming. Take on an empty stomach in the morning, before bed, or as directed by a healthcare professional. Suitable for children from the age of 1 year. **Caution:** When antibiotics are used, wait 2-3 hours before using this product. If you are pregnant, nursing, have a medical condition, or taking prescription drugs, consult your healthcare professional before using this product. Keep out of reach of children.

## Target B<sup>2</sup><sup>™</sup>

### A targeted probiotic clinically demonstrated to support lactation comfort and infant immune health<sup>†</sup>

Target B<sup>2</sup> with Hereditum<sup>®</sup> Lc40 is a targeted probiotic designed to extend the benefits of breastfeeding and support overall infant immune health. This strain of *Lactobacillus fermentum* (CECT5716) is clinically demonstrated to support breast health and resolve discomfort associated with mammary dysbiosis.<sup>2,3</sup>

As many as one-third of lactating women experience significant discomfort resulting in premature cessation of breastfeeding. Studies have shown that lactic acid bacteria isolated from human milk may prevent and resolve lactation-associated mammary dysbiosis. The Target B<sup>2</sup> strain was isolated from colonizing *Lactobacillus* in healthy breast milk and has been specifically selected for safety and for its antimicrobial and immunomodulatory properties.

One capsule per day in the third trimester and up until the cessation of breastfeeding is recommended. For more intensive support, increase to one capsule, three times per day or as recommended by a healthcare professional.

**Suggested use:** 1 capsule, 1 to 3 times daily (3 to 9 billion CFU) or as directed by a healthcare professional.

### Supplement Facts

## TB2 90 capsules

## LactoPrime<sup>™</sup> Plus

### 25 billion CFU, multispecies formula

This broad-spectrum, 12-strain blend of 7 *Lactobacillus* species and 5 *Bifidobacterium* species is provided in a base of purified plant cellulose. This formula is free of inulin and other prebiotics and polysaccharides, making it suitable for those who have dietary restrictions such as a FODMAP diet.

**SUGGESTED USE:** **Adults:** 1 capsule daily with food or as directed by a healthcare professional. **Children:** As directed by a healthcare professional.

## K-LPP 60 vegetarian capsules

<sup>†</sup>These statements have not been evaluated by the Food and Drug Administration. These products are not intended to diagnose, treat, cure, or prevent any disease.

## BioSpora™

### A combination of two spore-forming probiotics

BioSpora is a powerful blend of genetically certified *Bacillus coagulans* and *B. subtilis* species formulated to provide unique probiotic support of healthy gastrointestinal and immune function.<sup>†</sup> Spore-forming bacilli have often been referred to as soil-based microorganisms because of their ubiquitous presence in the earth. Although found in the human GI tract, spore-forming bacilli have long been considered incidental, transient bacteria. However, research shows that *Bacillus* species are present in the GI tract in numbers higher than can be explained by ingestion alone. Germination of *Bacillus* spores within the human small intestine and transient colonization are now thought to be part of the normal life cycle of human-associated *Bacillus* species which provide specific stimuli for healthy GI and immune system development and function. Each capsule of BioSpora supplies a total of 2 billion CFU of *B. coagulans* and *B. subtilis* spores positively identified through independent 16S ribosomal RNA gene sequencing. The spores are resistant to extremes of heat, ultraviolet radiation, solvents, hydrogen peroxide, and enzymes and can withstand stomach acid and germinate in the small intestine within 6 hours of ingestion. Ingested *B. coagulans* and *B. subtilis* reside in the human GI tract for up to 7 days following consumption. BioSpora is recommended for enhanced support of normal GI and immune function.<sup>†</sup> It is certified free of casein, gluten, and soy and does not require refrigeration.

**SUGGESTED USE:** 1 capsule daily or as directed by a healthcare professional.

## K-BSP-12 120 vegetarian capsules

## ABx Support™

### Powerful intestinal microbiota support during antibiotic therapy<sup>†</sup>

ABx Support is a carefully researched blend of the non-pathogenic yeast *Saccharomyces boulardii* with *Lactobacillus rhamnosus*, *Bifidobacterium bifidum*, and *Bifidobacterium breve*, probiotic microorganisms which have been shown in numerous controlled clinical trials to reinforce commensal gut bacteria during antibiotic therapy.<sup>†</sup>

The ABx species enhance innate and acquired immunity, decrease T cell proliferation, induce helper (CD4+) T cell hypo-responsiveness, increase phagocytic activity in peripheral white blood cells and killing activity in natural killer cells, and support inflammation metabolism.<sup>†</sup>

This hypoallergenic formulation is provided in vegetarian capsules in bottles of 28 capsules, a convenient 14-day supply for concurrent use during antibiotic therapy, or larger bottles of 60 capsules to continue to support GI health after antibiotic therapy.

**SUGGESTED USE:** Adults: 1 capsule twice daily with food or as directed by a healthcare professional. Children: As directed by a healthcare professional.

Serving Size 1 Capsule

Amount Per Capsule		% Daily Value
Probiotic Blend (10 billion CFU) in a base of inulin (derived from chicory root)	400mg	*
<i>Saccharomyces boulardii</i>	5.0 billion CFU	*
<i>Lactobacillus rhamnosus</i>	2.5 billion CFU	*
<i>Bifidobacterium bifidum</i>	1.25 billion CFU	*
<i>Bifidobacterium breve</i>	1.25 billion CFU	*

\*Daily Value not established.

Other ingredients: Vegetarian capsule (hydroxypropyl methylcellulose, water).

## Saccharomyces Boulardii Powder

### Pure *Saccharomyces boulardii* powder

This single-ingredient, clean-label *Saccharomyces boulardii* formulation comes with a dual scoop for measuring accuracy, and is particularly effective and uniquely convenient for use in high-potency titration protocols. *Saccharomyces boulardii* is a nonpathogenic, transient yeast. Since its discovery in 1920, clinicians worldwide have used *S. boulardii* to support normal bowel transit time, to promote healthy immune and inflammatory response, and to bolster gastrointestinal microbiota diversity, particularly in conjunction with antibiotic therapy. *S. boulardii* is also commonly used to safely and effectively displace undesirable yeast species, which may play a beneficial role in neurological health, particularly for individuals on the spectrum.<sup>†</sup>

**SUGGESTED USE:** **Small Scoop:** 1 scoop (1 mL) 1 to 4 times daily with water, juice, food, or as directed by a healthcare professional. **Large Scoop:** 1 scoop (5 mL) 1 time daily with water, juice, food, or as directed by a healthcare professional.

### Supplement Facts

Serving Size 1 Small Scoop (1mL or 600 mg) or Large Scoop (5mL or 3,000 mg)

Amount Per Scoop	% Daily Value
<i>Saccharomyces boulardii</i> *	
Small Scoop	9 billion CFU (600 mg)
or	
Large Scoop	45 billion CFU (3,000 mg)

\*Daily Value not established.

Other ingredients: None.

**SBP-180 300 small scoops / 60 large scoops**

## Saccharomyces Boulardii

### A powerful transient yeast probiotic

*Saccharomyces boulardii* is a nonpathogenic, transient yeast used to support normal bowel transit time.<sup>†</sup> It is a hardy, acid-resistant, temperature-tolerant microorganism that is not affected by antibacterial agents. *S. boulardii* is genetically and functionally distinct from brewer's yeast (*S. cerevisiae*) and from pathogenic candida species. It stimulates intestinal brush border enzymes to maintain normal digestive functions.<sup>†</sup> It stimulates D-glucose and sodium absorption and produces short-chain fatty acids that nourish colon mucosa.

**SUGGESTED USE:** 1 capsule twice daily with meals or as directed by a healthcare professional.

### Supplement Facts

Serving Size 1 Capsule

Amount Per Capsule	% Daily Value
Probiotic Blend in a base of cellulose	320 mg *
<i>Saccharomyces boulardii</i>	3 billion CFU *

\*Daily Value not established.

Other ingredients: Vegetarian capsule (hydroxypropyl methylcellulose, water) and L-leucine.

**V776-06 60 vegetarian capsules**

**V776-12 120 vegetarian capsules**

# Prebiotics

Prebiotic fiber goes through the small intestine undigested and is fermented by gut bacteria when it reaches the colon. This fermentation process by gut bacteria feeds beneficial

bacteria colonies (including probiotic bacteria) and helps to increase the number of desirable bacteria in our digestive systems that support health.

## Galactomune®

### Targeted prebiotic support for healthy intestinal microflora†

Galactomune provides a synergistic blend of two well-researched prebiotic fibers, galactooligosaccharides (GOS) and beta-glucan, formulated to nourish and support the growth of beneficial *Bifidobacterium* and *Lactobacillus* species. The microbiota is comprised of hundreds of bacterial species that support a wide variety of body functions, from digestion and metabolism to immunity and mental health. Prebiotics such as GOS and beta-glucans contribute to soluble fiber intake, which is essential to commensal organism health and normal bowel function.

The galactooligosaccharides (derived from lactose) and betaglucans (derived from *Saccharomyces cerevisiae*) present in both Galactomune powder and capsules are extensively purified.

- Support for healthy intestinal microflora†
- Clean and hypoallergenic for optimal results
- Supports probiotic supplementation

### Capsules

**SUGGESTED USE:** 1 capsule twice daily with food or as directed by a healthcare professional.

Supplement Facts		
Serving Size 1 Capsule		
Amount Per Capsule		% Daily Value
Galactomune® Prebiotic Blend	550 mg	*
Galactooligosaccharides		
Beta-Glucan (purified from <i>Saccharomyces cerevisiae</i> )		

\*Daily Value not established.

Other ingredients: Vegetarian capsule (hydroxypropyl methylcellulose, water), L-leucine, and cellulose.

CONTAINS MILK AND FISH (BONITO).

### K-GALC 60 vegetarian capsules

### K-GALC1 120 vegetarian capsules

### Powder

**SUGGESTED USE:** 1 scoop, 1 to 2 times daily with food or as directed by a healthcare professional. Mix powder in cold, warm, or hot foods or beverages as desired.

Supplement Facts		
Serving Size 1 Scoop (Approx. 1 teaspoon or 5 grams) • Servings Per Container 30		
Amount Per Scoop		% Daily Value
Calories	5	
Total Carbohydrate	5 g	2%**
Dietary Fiber	4 g	16%**
Galactomune® Prebiotic Blend	5 g	
Galactooligosaccharides		*
Beta-Glucan (purified from <i>Saccharomyces cerevisiae</i> )		*

\*Daily Value not established.

\*\*Percent Daily Values are based on a 2,000 calorie diet.

Other ingredients: None.

CONTAINS MILK AND FISH (BONITO).

### K-GAL 5.3 oz. (150 grams) powder

**WARNING:** This product can expose you to chemicals including lead, which is known to the State of California to cause birth defects or other reproductive harm. For more information go to [www.P65Warnings.ca.gov/food](http://www.P65Warnings.ca.gov/food)

## BiotaGen®

### A comprehensive prebiotic formula

BiotaGen is a combination of prebiotic fibers formulated with a unique blend of inulin, arabinogalactan, and beta-glucan. Human digestive enzymes are not able to break down most fibers found in complex carbohydrates and plant polysaccharides. Instead, these fibers act as prebiotics that nourish the gut microbiota. Through the fermentation process, commensal organisms use these fibers to generate the short-chain fatty acids (SCFAs) instrumental in colon cell nourishment, intestinal barrier integrity, and other systemic functions.† BiotaGen also contains the prebiotic arabinogalactan, derived from *Larix occidentalis*. Arabinogalactan may help aid the immune system by supporting normal macrophage activity and healthy immune cell function within the body.† Beta-glucan, isolated from *Saccharomyces cerevisiae*, also supports healthy immune system cells, including monocytes, macrophages, and natural killer cells.†

- Three prebiotic fibers in one formula
- Available in capsules and powder
- Supports the health of gut microbiota species and host immune system

### Capsules

**SUGGESTED USE:** 4 capsules, 1 to 2 times daily or as directed by a healthcare professional.

#### Supplement Facts

Serving Size 4 Capsules

Amount Per 4 Capsules	% Daily Value	
Calories	5	
Total Carbohydrate	3 g	1%**
Dietary Fiber	2 g	7%**
BiotaGen® Prebiotic Blend	3 g	*
Inulin (derived from chicory root)		
Beta-Glucan (purified from <i>Saccharomyces cerevisiae</i> )		
Arabinogalactan ( <i>Larix laricina</i> ), (larch tree wood) (water-soluble polysaccharide extract)		

\*Daily Value not established.

\*\*Percent Daily Values are based on a 2,000 calorie diet.

Other ingredients: Vegetarian capsule (hydroxypropyl methylcellulose, water) and L-leucine.

### K-BTGC 120 vegetarian capsules

**WARNING:** This product can expose you to chemicals including lead, which is known to the State of California to cause birth defects or other reproductive harm. For more information go to [www.P65Warnings.ca.gov/food](http://www.P65Warnings.ca.gov/food)

### Powder

**SUGGESTED USE:** 1 scoop, 1 to 2 times daily. Mix with water, juice, or food, or as directed by a healthcare professional.
